

# KORTOS University of Kentucky Health Follow-Up Study

August 2013

## Your opinions matter!

For just 20 minutes of your time, you can help make treatment programs in Kentucky better.

Let your voice be heard.

## Why should I sign up?

Why not? Everyone has a different treatment experience and we want to hear about yours!

After you finish the survey, the University of Kentucky will send you a \$20 check to thank you for your time.

## Why should I trust that my information will stay private?

We have a **Federal Certificate of Confidentiality** for this project which means we can't be forced to give out your information, even under a court subpoena.

## How do I sign up?

**NONE**

of your information will ever be given out and we're **not** a part of your treatment program.

All we need is:

- Your agreement to be in the study
- The best phone number to reach you
- An address where you get mail

## What will I do?

In 6 months, we may contact you to do a 20 minute phone survey. In the survey we will ask you to:

- Tell us what you liked and didn't like about your treatment
- Tell us how you think it could be better
- Tell us how you are doing

## Who will see my answers?

**No one.**

Not even your family, partner, employer or counselor will know what you say. Your name is never attached to your answers so they can't be traced back to you.

Many others just like you have already finished the survey.

**Join them today!**

## How do I know this is real?

Check out our website!
