

**Section Ten: Comparison to the Kentucky
Needs Assessment 1999 Adult Household
Report**

This page intentionally left blank

1999 ADULT HOUSEHOLD SURVEY COMPARISON

Comparison with the 1999 Adult Household Survey – Estimates from the 1999 Kentucky Needs Assessment Adult Household Survey are very similar in most respects to the 2004 household survey. Tables 10.1 through 10.11 present comparisons of estimates between the 1999 survey and this survey.

Cigarettes – There was a decrease in cigarette smoking at all levels. Females showed the largest decrease for lifetime cigarette use from 72.2% down to 59.0%. Table 10.1 presents the comparison of cigarette smoking from 1999 to 2004.

Table 10.1: Cigarettes

	1999		2004	
	#	%	#	%
Lifetime	2,276,392	77.3%	2,070,134	66.3%
Past Year	953,946	32.4%	902,522	28.9%
Past 30 Days	884,729	30.0%	832,913	26.7%
Gender (lifetime use)				
Males	1,161,449	82.9%	1,116,231	74.1%
Females	1,114,943	72.2%	953,903	59.0%
Age Group (lifetime use)				
18 to 24	278,956	70.4%	274,981	67.0%
25 to 44	916,853	77.8%	756,285	63.8%
45 to 64	721,013	82.1%	696,855	68.8%
65+	359,570	73.0%	342,013	66.8%

Alcohol – There was a decrease in drinking at all levels. Females showed the largest decrease for past year drinking from 56.8% down to 47.0%. Table 10.2 presents the comparison of drinkers from 1999 to 2004.

Table 10.2: Alcohol

	1999		2004	
	#	%	#	%
Lifetime	2,614,604	88.7%	2,552,825	81.7%
Past Year	1,674,411	56.8%	1,468,740	47.0%
Past 30 Days	1,097,301	37.2%	1,112,156	35.6%
Gender (lifetime use)				
Males	1,318,547	94.1%	1,333,122	88.4%
Females	1,296,057	83.9%	1,219,703	75.5%
Age Group (lifetime use)				
18 to 24	347,808	87.7%	329,679	80.3%
25 to 44	1,091,740	92.6%	1,024,046	86.4%
45 to 64	784,068	89.2%	838,846	82.7%
65+	390,988	79.3%	356,255	69.5%

1999 ADULT HOUSEHOLD SURVEY COMPARISON

Illicit Drugs – The percent of persons who use illicit drugs increased. The percent who reported using within the past 30 days increased from 3.4% to 4.6%. Table 10.3 presents the comparison of illicit drug users from 1999 to 2004.

Table 10.3: Illicit drugs

	1999		2004	
	#	%	#	%
Lifetime	962,911	32.7%	1,052,348	33.7%
Past Year	179,113	6.1%	213,560	6.8%
Past 30 Days	99,881	3.4%	145,017	4.6%
Gender (lifetime use)				
Males	565,693	40.4%	621,729	41.3%
Females	397,218	25.7%	430,619	26.7%
Age Group (lifetime use)				
18 to 24	164,930	41.6%	175,459	42.7%
25 to 44	562,091	47.7%	542,539	45.7%
45 to 64	204,939	23.3%	313,249	30.9%
65+	30,951	6.3%	21,101	4.1%

Marijuana – The percent of persons who use marijuana in 2004 was similar to the percent of persons who used marijuana in 1999. Table 10.4 presents the comparison of marijuana users from 1999 to 2004.

Table 10.4: Marijuana

	1999		2004	
	#	%	#	%
Lifetime	962,911	32.7%	979,568	31.4%

65+	7,542	1.5%	2,137	0.4%

e – estimate too small to calculate accurately

Alcohol Dependence and Abuse – There was a notable decrease in the percent of persons who met DSM-IV criteria for Alcohol Dependence and Alcohol Abuse within the past year. The percent of persons meeting dependence in 1999 was identical to the percent of persons meeting abuse in 1999. In 2004, the percent of persons meeting criteria for dependence was much lower than the percent of persons meeting abuse. Females and persons 18 to 24 years old meeting lifetime criteria for abuse showed the smallest change from 1999 to 2004. Tables 10.7 and 10.8 present the comparison for persons meeting alcohol abuse and alcohol dependence from 1999 to 2004.

Table 10.7: Past year alcohol dependence

	1999		2004	
	#	%	#	%
	198,381	6.7%	54,902	1.8%

1999 ADULT HOUSEHOLD SURVEY COMPARISON

Drug Dependence and Abuse – There was little change for persons meeting criteria for drug dependence in the past year. The percent of females meeting criteria for drug dependence in the past year doubled from 1999 to 2004. The percent of persons meeting criteria for drug abuse increased from 0.6% in 1999 to 1.5% in 2004. The largest increase for abuse was for persons aged 25 to 44 years old. Tables 10.9 and 10.10 present the comparison of persons who met drug dependence and abuse from 1999 to 2004.

Table 10.9: Past year drug dependence

	1999		2004
