FY2024 Intake Interview

*Effective July 1, 2023  
Revised September 2023*

Please use the online data collection program either through the On-line Data Entry link for the Intake Interview at <https://ukcdar.uky.edu/KTOS>

If you have to use the paper version for the KTOS intake interview (i.e., internet is down, no computer available at the interview time), be sure to enter the paper responses in the online KTOS website **within 7 days** so that the data can be used for the study.

*Counselor, please answer the following questions before beginning the interview with the client. If your client is 17 or younger, please exit and open the Adolescent KTOS program instead.*

**PLEASE NOTE:** All client information is confidential (with identifiers stored separately from intake responses), is encrypted (or scrambled) such that only those with a specific key can read them, and can only be accessed by authorized staff. Identifying information is used for matching service event data.

1. Client's name: First \_\_\_\_\_ Last \_\_\_\_\_
2. What is the client's date of birth? \_\_\_\_\_ (MM/DD/YYYY)
3. What is the client's social security number? *(This is used for matching service event data. It is kept encrypted and only accessed by authorized staff.)*

## **Preliminary Questions**

*Please answer the following questions before beginning the interview with the client.*

1. Date of Intake Interview (**Date this Intake Interview is/was actually completed with the client**):  
\_\_\_\_\_ (MM/DD/YYYY)

**Note: If you are recording the interview responses on the paper version, please enter the interview data into the web data collection survey within 7 days.**

2. Date of admission (**Date the client was admitted into this treatment episode or program**):  
\_\_\_\_\_ (MM/DD/YYYY)

## Introduction

*The following questions are part of the **Kentucky Treatment Outcome Study or KTOS**. KTOS is an important part of Kentucky's plan to improve substance abuse treatment. KTOS involves collecting information from clients before and after treatment to gain insight into the treatment process and the individuals involved in treatment programs. Federal and local governments often respond to substance abuse problems by funding more jails and prisons. **KTOS helps provide support for substance abuse treatment programs as a better alternative to jails and prisons for people who have substance use problems.***

**KTOS is a confidential two-part survey.**

**Part one** is a face-to-face interview with your counselor completed as part of your treatment intake process and takes about 20-30 minutes. You will answer a series of questions about physical and mental health, education and employment, substance use, legal involvement, and recovery support.

**Part two** is a phone interview about 12 months from now. At the end of part one, you'll be asked to volunteer for the second half of the study. If you agree, your name will be included in the pool of clients who may get a phone call from the **University of Kentucky Health Follow-up Study** to answer similar questions in about one year. Clients who complete the **second half of the survey** are sent a "thank you" check for **\$20** from the University of Kentucky.

It is very important for you to know that **all of your Follow-Up Interview information is confidential**. Your name will never be reported or even linked with the answers given in the follow-up survey. When we write up reports they include overall findings about the entire group of participants, not individuals. We have a **Federal Certificate of Confidentiality that prohibits us from ever revealing information about a person, even under a court order**. Your responses to the follow-up survey questions are well protected.

Your participation also helps improve future treatment for others and provides important information about the experiences of people in substance abuse treatment.

## Section A. Basic Client Information

*These first few questions are basic questions we need to get the interview started and to learn a little more about what services you might be interested in.*

1. What is your gender?
  - 1 = Male

## Section F. Substance Use

The next group of questions is about your substance use in the 12 months and 30 days before entering this program. **NOTE: If there was ANY use within a month it counts as a month's use. Also, non-prescribed use of prescription medication or misuse of prescribed medication (e.g., taking more than prescribed) should be counted as the use of drugs.**

1. Have you ever used medical marijuana (cannabis)?

0 = No (**Skip to Q2**) 1 = Yes

1a. Have you ever had certification from a doctor for medial cannabis in Kentucky (or had a medical marijuana card from Kentucky)?

0 = No 1 = Yes

1b. Have you ever had a medical marijuana card or prescription for marijuana from another state?

0 = No 1 = Yes

1c. During the past...how many...did you use...? *If there is no use during the past 12 months, skip to the next question and leave the 30 day column blank. (Interviewer note: if there was ANY use within a month it counts as a month's use. Ask specifically about behavior in "the past 30 days." Do not use "in the past month" as a substitute—this may lead to confusion and inaccurate responses.)*

	Past 12 Months (# OF MONTHS)	Past 30 Days (# OF DAYS)
Medical marijuana (cannabis)		

2. Have you used any of the following sold over-the-counter legal substances in the past 12 months? (If yes for past-12-month use, ask about past 30 days): ...in the past 30 days?

**(Online program will display substances selected "yes" for past 12 month use to ask about past-30-day use)**

### Section G. Legal Status

*In this section you will be asked to answer questions about your involvement with the criminal justice system in the 12 months before entering this program. Involvement in the criminal justice system can change over time and this information will help us understand that change.*

1. In the 12 months before entering this program, how many **NIGHTS** were you incarcerated (jail, prison, or a detention center)? \_\_\_\_\_ Nights
2. Are you currently on probation? 0 = No 1 = Yes
3. Are you currently on parole? 0 = No 1 = Yes
4. In the 12 months before entering this program, how many times were you arrested and charged for any offense? \_\_\_\_\_Times  
*(Interviewer Tip: If the respondent does not know, you can help him/her narrow down by giving wide ranges, “was it more like 2 or 20?” if they say a few times you can give a narrower range, “was it more like 2 or 5?” This helps to prompt memories.)*

5. Have you had any misdemeanor or felony convictions in the 12 months before entering this program? Convictions are when you make a plea deal with the prosecutor about a charge or when a jury finds you guilty. Note: In Kentucky, a DUI is a felony conviction after the third offence in a five-year period. If yes, how many were misdemeanors? How many were felonies?

## Section H. Recovery Supports

*The final set of questions is about the recovery support you currently have available to you. Recovery supports are important to understand the recovery process over time.*

1. In the 30 days before you entered this program, how many times did you attend AA, NA, MA or other self-help group meetings (**count # of meetings attended**)? \_\_\_\_\_ meetings
2. Did you have contact with an AA, NA, MA or other sponsor in the 30 days before you entered this program? 0 = No 1 = Yes 2 = Don't have a sponsor
3. In the 30 days before you entered this program, did you have contact with family or friends who were supportive of your recovery? 0 = No 1 = Yes
4. In the 30 days before you entered this program, how many people could you count on for recovery support when you needed it? \_\_\_\_ people
5. Besides substance abuse treatment, what are the next two things in your life you think are going to help you in getting or staying off illicit drugs or alcohol? (**select up to TWO answers**)
  - Employment
  - Counseling
  - Self Help (*this refers to programs or services like AA or NA*)
  - My faith or religion
  - Other people in recovery
  - Support from family
  - Support from friends
  - Support from a partner (boy/girlfriend, spouse)
  - Children (being responsible for dependents)
  - The need to stay out of jail or prison
  - Change in environment (staying away from certain people, places)
  - Staying busy/keeping occupied
  - Will power/self-talk/wanting it for myself (determination, motivation)
  - Remembering the past/consequences

# University of Kentucky Health Follow-up Study

Thank you for considering participation in the follow-up study. This study helps improve programs like the one you are entering. This is a summary of the study and the consent form, on the next page, has more details. The Health Follow-up study staff from the University of Kentucky may contact you in about 12 months from now if: (1) you agree to be contacted; and, (2) you are selected.

## What will I be asked to do?

If you agree and are selected, we will contact you by phone in about 12 months for a short survey (about 15 minutes). You will be paid \$20 for your time. We will ask you about your program experience and how you have been doing during the past 12 months.

The information you provide can help others across the state and help improve programs.

You can agree to participate now, but you will also be able to decide whether or not to agree to participate if we contact you.

## Who will see my answers?

No one will know what you tell us. Your name is not attached to your answers so they can't be traced back to you. About 1,200 other people across Kentucky participate in this study each year and all of your feedback will be reported as a group. No names are ever revealed.

## Why should I sign up?

Everyone has a different treatment experience and we want to hear about yours! After you finish the survey, the University of Kentucky will send you a \$20 check as a thank you for your feedback and time.

## How do I sign up?

Let us know, on the page below, if you want to be contacted about the follow-up study. We will also need information about how to contact you about 12 months from now.

None of your information will ever be given out to anybody but you. We will use a special security process to verify we are speaking to only you when we call.

## What if I have questions?

You can check out our website at [ukhealthfollow-up.com](http://ukhealthfollow-up.com), text or call us at 866-304-5467 for more information, or call Dr. TK Logan at 859-323-5467 with any questions for concerns.

**UK HEALTH FOLLOW-UP STUDY**  
**Basic Adult Consent to Participate in a Treatment Outcome Study**  
**University of Kentucky Medical Center**  
**Center on Drug and Alcohol Research**

**WHY AM I BEING ASKED TO TAKE PART IN THIS RESEARCH?**

You are being asked to take part in a follow-up research study of substance abuse treatment because you are a client of a state-funded substance abuse treatment program. Your participation in this research project is completely voluntary. If you take part in this study, you will be one of about 1,200 people per year to do so. This research study is separate from your taking part in counseling services at the substance abuse treatment center. Your taking part in the study is not required to get treatment at the program.

**WHO IS DOING THE STUDY?**

The Principal Investigator in charge of the study is Dr. TK Logan who is a professor at the University of Kentucky. Jennifer Cole, Ph.D. also works with the study. Other professionals who work with the investigators may help them with the study.

**WHAT IS THE PURPOSE OF THIS STUDY?**

The purpose of this study is to gather information about substance abuse and related behavioral health problems. It also studies employment, education, legal status, stress and health status and your use of treatment services. It is also for the purpose of learning more about your treatment program experiences.

**WHERE IS THE STUDY GOING TO TAKE PLACE AND HOW LONG WILL IT LAST?**

When you come in for your treatment intake visits, your counselor will ask you questions about substance use and related behaviors. In addition, twelve months after you entered treatment, we will contact you by telephone for a follow-up interview. The follow-up interview takes about 20 minutes. In general, we usually contact about 20% of the persons who agree to participate in the follow-up study. Therefore, your chances are about one in five of being contacted for follow-up.

**WHAT WILL I BE ASKED TO DO?**

You will be asked to answer questions about your substance use and related behavioral health problems. You will be asked about your employment, education, legal status, stress, and your use of services. You will not be asked to take part in any experimental treatments or procedures.

You will also be asked to give contact information so that we can contact you in 12 months. We will ask you for names, addresses, and phone numbers of two persons who would be most likely to know how to reach you 12 months after treatment. We may call you to update your information so we can reach you for the follow-up. If you are called for a follow-up interview by telephone, you will be asked some of the same questions that are asked by your counselor. This telephone call takes about 20 minutes.

You are also asked to let the researchers use state information about the number, type and costs of state and Medicaid funded services you receive. In addition, you are being asked to let the researchers collect information from public records of arrests and court events that have involved you. You or the people you list as contacts may be contacted by phone, mail, email, or through social networking sites such as Facebook in order to reach you to complete the follow-up interview. We may use publicly available databases to find updated information in order to contact you about completing the follow-up interview. In some cases, we may confidentially try to contact you through addresses or phone numbers that are or have been linked to you in some way by mail or phone.

**ARE THERE REASONS WHY I SHOULD NOT TAKE PART IN THIS STUDY?**

There are no conditions that would keep you from taking part in this study. If you are only in detoxification or just in DUI education, you should not be in the study.

**WHAT ARE THE POSSIBLE RISKS AND DISCOMFORTS?**

There are no known risks to participating in these interviews. It is perhaps possible that the questions will cause you some emotional discomfort since they might cause you to remember times when you were unhappy or under stress. Also, some people may be uncomfortable talking about confidential information. Because of the steps we have taken to protect your privacy, the risk of unauthorized disclosure is minimal. If you have some discomfort during the follow-up interview, you will be offered referral to counselors in your area.

**WILL I BENEFIT FROM TAKING PART IN THIS STUDY?**

There are no direct benefits to you for taking part in the follow-up study. However, some people find it helpful to be interviewed about their lives and their substance use because it helps them see their health in a different light. Also, these questions about substance use might help you see a need for change and this can be a benefit.

**DO I HAVE TO TAKE PART IN THIS STUDY?**

If you decide to take part in this follow-up study, it should be because you really want to volunteer. You will not lose any benefits or rights you would normally have if you choose not to volunteer. You can stop at any time during the study and still be in good standing with the substance abuse treatment program.

**IF I DON'T WANT TO TAKE PART IN THE STUDY, ARE THERE OTHER CHOICES?**

If you do not want to take part in the follow-up study, there are no other choices except to not participate.

**WHAT WILL IT COST ME TO TAKE PART IN THIS STUDY?**

You will not have any cost for the follow-up interview study.

**WHO WILL SEE THE INFORMATION THAT I GIVE?**

Because of the steps we have taken to protect your privacy, the risk of unauthorized disclosure of information is minimal. Your information will be combined with information from other people taking part in the study. When we write about the study, we will write about the combined information we have gathered. You will not be identified in these written materials. When we publish the results of this study, we will keep your name and other identifying information private. Your counselor will ask for your social security number, but it will be encrypted to keep it secure and protected. This number will help us match all information clearly to your file; however, if you do not want to give us your social security number, you can still take part in the study. All information is stored in computers that are secure and under password protection. Files are encrypted to further protect your confidentiality.

**We have also obtained a Confidentiality Certificate from the US Department of Health and Human Services (DHHS). This protects the researchers from being forced, even by a court order or subpoena, to identify you.** (The Confidentiality Certificate does not imply approval or disapproval of the project by the Secretary of DHHS.) You should know, however, that we may provide information to appropriate individuals or agencies if harm to you, harm to others, or child abuse is disclosed to us. In addition, the agency funding this research (The Kentucky Division of Behavioral Health) and the staff of the University of Kentucky may also see your information if necessary.

**WILL I RECEIVE ANY REWARDS FOR TAKING PART IN THIS STUDY?**

You will receive \$20.00 for a completed follow-up interview at 12 months after treatment. In order to get the \$20.00 you must take part in the follow-up interview, and then payment will be mailed to you. If you are paid over \$600 in any year from various studies, the University of Kentucky has to report this as income to the IRS. There is no compensation for completing the intake interview.

**WHAT IF I HAVE QUESTIONS?**

Before you decide whether to participate in this follow-up study, please ask any questions that might come to mind now. Later, if you have questions about the study, you can contact the investigator, Dr. TK Logan at 859-257-8248. If you have any questions about your rights as a volunteer in this research, contact the staff in the Office of Research Integrity at the University of Kentucky at 859-257-9428 or toll-free at 1-866-400-9428. You may also contact the Cabinet for Health and Family Services Institutional Review Board (CHFS-IRB) at 502-564-5497 ext. 4102. We will give you a copy of this consent form to take with you.

**WHAT ELSE DO I NEED TO KNOW?**

This study is funded by the Kentucky Division of Behavioral Health to better understand the treatment of substance abuse in state-funded programs. You will be told if any new information is learned which may influence your willingness to continue taking part in this study.

Finally, after telling us if you agree to be contacted for the follow-up interview in approximately 12 months, we will ask you if you would be willing to be contacted in the future by the research team about other studies we may have. Agreeing to letting us contact you for the follow-up study and for future studies are not related; you may give consent to one, both, or neither study. If you consent to let us contact you to tell you about another possible research opportunity, you can decide at the time we contact you whether or not you want to participate.

---

By choosing the appropriate option below, the client agrees to being contacted by telephone in approximately 12 months for a follow-up interview. At that time, a participant can decide again whether they do or do not want to participate in the follow-up interview.

Choose one of the following answers:

- I agree to be contacted for participation in the 12-month follow-up survey.
- I do NOT agree to be contacted for participation in the 12-month follow-up survey.

**If client answers “I do NOT agree”**

**Thank you for answering these questions. Your information helps improve substance abuse treatment in Kentucky.** (Proceed to the next question about agreeing to be contacted about a future research study)

**If client answers “I Agree”**

Thank you for agreeing to let us get in touch with you in the future. This last section asks you about some information to help us contact you. Like all the rest of the responses you have just given, the locator information is stored encrypted in a password-protected file to which only approved study staff has access. We will only use this information to locate you in the future, and it will not be given to

anyone else. One thing we will ask is whether we can contact someone you know (like your mother or grandmother) to reach you. If we do that, we will not tell that person *anything* except that you have been asked to take part in a **health program follow-up study**. Before we collect contact information, we have one more question to ask. (Proceed to the next question about agreeing to be contacted about a future research study)

Would you be willing to be contacted again in the future about another research study with us? If you are contacted, you will learn more about the study then and be able to decide if you want to participate at that time.

1 = Yes

0 = No
