## Introduction

---

*The following questions are part of the **KY-Moms MATR program evaluation**. The interview is similar to one used for many program evaluations across Kentucky and it will help the state better understand the needs of new moms. The evaluation for the KY-Moms program involves collecting information from clients about the time before, during, and after involvement with the program to gain insight into the program satisfaction and status of participants over time.*

*The KY-Moms Program evaluation involves two confidential components.*

**Part one** is a face-to-face interview with a case manager or other KY-Moms staff member as part of your intake process and takes about 30 minutes. You will be asked questions about your experiences before, during and after pregnancy including your physical and mental health, substance use history, treatment history, criminal justice system involvement, education, employment, living situation, safety, and support. At the end of this interview you will be asked if you would like to volunteer for part two of the evaluation.

**Part Two** is a 20-minute follow-up telephone interview that takes place about 6 months after you enter the program. The **University of Kentucky evaluation team is responsible for the follow-up interviews**. This means that KY-Moms MATR program staff will not know what you say as your answers will be combined with about 200 other client responses. When the UK interviewers call you for a follow-up phone interview, they will remind you that this is part two of the **“UK Health Follow-up Study.”** The interviewers do not reveal your identity or that you received services through the KY-Moms program. Clients who complete the **second half of the interview** are sent a “thank you” check for \$20 from the University of Kentucky.

What you say during the follow-up interview is **confidential**. This means your name will not be reported or even linked with the answers given in the follow-up interview. The reports only include overall findings about the entire group of participants, **not individuals**. The University of Kentucky has a **Federal Certificate of Confidentiality that prohibits the researchers from revealing information about a person even under a court subpoena**. Your responses to these questions are well protected.

**Your participation helps improve future services for other women in Kentucky like yourself.**

Please read over the consent form provided at the end of this intake interview and decide if you would be willing to participate in the **University of Kentucky Health Follow-up Study** in about 6 months.

## Important Events In Your Life To Help You Remember

The questions in this interview ask about a variety of timeframes. Some questions will ask about ever, others will ask about the 6 months before you knew you were pregnant, during your pregnancy, the **6 months before entering the KY-Moms program** and the past **30 days**. To help you remember what time frame we are going to be talking about, we will use a calendar we will fill out together. Because this may have been a while ago, to help you remember I would like to ask you for something memorable about any of those months.

*Note: It is not necessary to spend a lot of time answering these questions. These questions are optional and meant to help jog the client’s memory and to help anchor the timeframes that will be referred to throughout the interview.*

1. When was the baby born? \_\_\_\_\_ MM/DD/YYYY *(build the calendar back from this date)*
2. Fill in the appropriate dates going back 30 days *(starting with the most recent 30 days)*. Then fill in the rest of the calendar so that a 6-month period is showing.
3. Each month should then be anchored with at least one event that has special meaning for the client *(Note: not all holidays or special days mean the same thing to all clients so it is critical that they decide what to put for each month as an anchor)*.
  - a. Any holidays or other special days during this period (e.g., Halloween)
  - b. Any birthdays for you, your partner, your children, or other close relative
  - c. Did anything special (positive or negative) happen to you in this time period? (e.g., change in job, major illness, start school, graduate, pregnant)
  - d. Did you move at all during this time period? What months did you move?
  - e. Any changes in your relationship status during these months?
  - f. Anything else memorable that you can think of?

Month number	1 (past 30 days before you entered program)	2	3	4	5	6
<u>Month</u>						
<u>Event(s)</u>						

***If using a paper copy, please print and refer to this throughout the interview. If using the computer, please refer to the calendar on the screen throughout the interview.***

## Section C. Physical Health

## Section F. Substance Use

The next group of questions is about your substance use during three time periods: 1) in the 6 months before you were pregnant, 2) while you were pregnant, and 3) in the past 30 days. (NOTE: If there was ANY use within a month it counts as a month's use. Also, non-prescribed use of prescription medication or misuse of prescribed medication (e.g., taking more than prescribed) should be counted as illegal drug use.)

1. Have you ever used medical marijuana (cannabis)? 0 = No (Skip to Q2) 1 = Yes

1a. Have you ever had certification from a doctor for medical cannabis in Kentucky (or had a medical marijuana card from Kentucky)? 0 = No 1 = Yes

1b. Have you ever had a medical marijuana card or prescription for marijuana from another state? 0 = No 1 = Yes

1c. During the past...how many...did you use...? If there is no use during the 6 months before you were pregnant, skip to the next question and leave the 30 day column blank. (Interviewer note: if there was ANY use within a month it counts as a month's use. Ask specifically about behavior in "the past 30 days." Do not use "in the past month" as a substitute—this may lead to confusion and inaccurate responses.)

Thank you for your help with this survey.

We would also like to obtain your permission to allow us to use some public health information and services about the birth of your child. This information will be kept completely confidential, in fact all identifying information such as your name will be removed from the final data, and the results will only be reported for all of those who complete a baseline. Your information will help use better understand the needs for health services of mothers of newborns in Kentucky.

YES, I give permission (need SS# to link information)

Were the last 4 digits of the client’s SSN confirmed? 0 = No 1 = Yes

**(If no)** Either confirm at this point OR ask

What is your SSN? \_\_\_\_\_ - \_\_\_\_ - \_\_\_\_\_

NO, I do not give permission

## Follow-Up Study

---

Thank you for considering participation in the follow-up study. This study helps improve programs like the KY-Moms program. This page summarizes the study while the next page has more details. The Health Follow-Up study staff from the University of Kentucky may contact you in about 6 months from now if: (1) you agree to be contacted; (2) you are selected; and, (3) we are able to contact you.

### **What will I be asked to do?**

If you agree and are selected, we will contact you by phone in about 6 months from now for a short survey (about 20 minutes). You will be paid \$20 for your time. We will ask you about your program experience and how you have been doing during the past 6 months.

The information you provide can help other women across the state and help improve programs.

You can agree to participate now, but you will also be able to decide whether or not to agree to participate if we contact you.

### **Who will see my answers?**

No one will know what you tell us. Your name is not attached to your answers so they can't be traced back to you. About 200 other women across Kentucky participate in this study each year and all of your feedback will be reported as a group. No names are ever revealed.

### **Why should I sign up?**

Everyone has a different program experience and we want to hear about yours! After you finish the survey, the University of Kentucky will send you a \$20 check as a thank you for your feedback and time.

### **How do I sign up?**

Let us know, on the page below, if you want to be contacted about the follow-up study. We will also need information about how to contact you in about 6 months from now.

None of your information will ever be given out to anybody but you. We will use a special security process to verify we are speaking to only you when we call.

### **What if I have questions?**

You can check out our website at [ukhealthfollowup.com](http://ukhealthfollowup.com), text or call us at 866-304-5467 for more information, or call Dr. TK Logan at 859-323-0416 with any questions or concerns.

**KY-Moms: Maternal Assistance Towards Recovery (MATR) Outcome Study  
Consent to Follow-Up Data Collection**

**WHY AM I BEING ASKED TO TAKE PART IN THIS RESEARCH?**

You are being asked to take part in a follow-up research study of the KY-Moms MATR program because you were involved with the program. Your participation in this telephone survey research project is completely voluntary. If you take part in this study, you will be one of about 200 women each year to do so.

**WHO IS DOING THE STUDY?**

The Principal Investigator in charge of the study is TK Logan, Ph.D. Allison Scrivner, M.S. and Jennifer Cole, Ph.D. also work with the study. There may also be others involved in the study.

**WHAT IS THE PURPOSE OF THIS STUDY?**

The purpose of this study is to gather information about your health during and after your pregnancy. It also asks about your employment, education, legal status, stress and health status and your use of treatment and KY-Moms MATR services. This interview is part of the evaluation of the KY-Moms MATR program and helps us learn more about your program experiences.

**WHERE IS THE STUDY GOING TO TAKE PLACE AND HOW LONG WILL IT LAST?**

The follow-up interviews are done by staff at the University of Kentucky who will contact you by telephone. The phone survey takes about 20 minutes to complete.

**WHAT WILL I BE ASKED TO DO?**

You will be asked to answer questions about your health during and after your pregnancy including substance use and related behavioral health. You will be asked about your employment, stress, and your use of services. You will not be asked to take part in any experimental treatments or procedures.

You will also be asked to give contact information so that we can contact you about 6 months after you give birth. We will ask you for the names, addresses, and phone numbers for you and up to two persons who would be most likely to know how to reach you at the time of follow-up about 6 months after the baby is born. You or the people you list as contacts may be contacted by phone, mail, email, or through social networking sites such as Facebook in order to reach you to complete the follow-up interview. We may use publicly available databases to find updated information in order to contact you about completing the follow-up interview. In some cases, we may confidentially try to contact you through addresses or phone numbers that are or have been linked to you in some way by mail or phone. When trying to contact you, the researchers will continue to keep your connection with the program confidential. You are also asked to let the researchers use state information about the number, types and costs of state and Medicaid funded services you receive and medical information about your health and birth outcomes at the time of the delivery of your baby.

**ARE THERE REASONS WHY I SHOULD NOT TAKE PART IN THIS STUDY?**

There are no conditions that would keep you from taking part in this study.

**WHAT ARE THE POSSIBLE RISKS AND DISCOMFORTS?**

There are no known risks to participating in these interviews. It is perhaps possible that the questions will cause you some emotional discomfort since they might cause you to remember times when you were unhappy or under stress. Also, some people may be uncomfortable talking about confidential information. Because of the steps we have taken to protect your privacy, the risk of unauthorized disclosure is minimal. If you express discomfort during the follow-up interview, you will be offered referrals to local and national resources.

**WILL I BENEFIT FROM TAKING PART IN THIS STUDY?**

There are no direct benefits to you for taking part in the follow-up study. However, some women find it helpful to be interviewed about their health and their pregnancies because it helps them see their health in a different light. Your opinion will also help provide information about how best to help pregnant women and how to improve the KY-Moms MATR program, and may also help obtain future funding for the program.

**DO I HAVE TO TAKE PART IN THIS STUDY?**

If you decide to take part in this follow-up study, it should be because you really want to volunteer.

**IF I DON'T WANT TO TAKE PART IN THE STUDY, ARE THERE OTHER CHOICES?**

If you do not want to take part in the follow-up study, there are no other choices except to not participate.

**WHAT WILL IT COST ME TO TAKE PART IN THIS STUDY?**

You will not have any cost for participating in any part of this research study.

**WHO WILL SEE THE INFORMATION THAT I GIVE?**

Because of the steps we have taken to protect your privacy, the risk of unauthorized disclosure of information is minimal. Your information will be combined with information from other people taking part in the study. When we write about the study, we will write about the combined information we have gathered. You will not be identified in these written materials. When we publish the results of this study, we will keep your name and other identifying information private. Your counselor will ask for your social security number, but it will be encrypted to keep it secure and protected. This number will help us match all information clearly to your file; however, if you do not want to give us your social security number, you can still take part in the study. All information is stored in computers that are secure and under password protection. Files are encrypted to further protect your confidentiality, which means the data are scrambled so that only authorized viewers with a passkey are able to see it.

To further protect your information, we have a Certificate of Confidentiality from the US Department of Health and Human Services (DHHS). With this Certificate, the researchers cannot be forced to disclose information that may identify you, even by a court subpoena, in any federal, state, or local civil, criminal, administrative, legislative, or other proceeding. You should know, however, that we may provide information to appropriate individuals or agencies if harm to you, harm to others, or child abuse is disclosed to us. In addition, the agency funding this research (The Kentucky Division of Behavioral Health) and the staff of the University of Kentucky may also see your information if necessary.

**WILL I RECEIVE ANY REWARDS FOR TAKING PART IN THIS STUDY?**

You will receive \$20.00 for a completed follow-up interview at 6 months after you have given birth. In order to get the \$20.00 you must take part in the follow-up interview, and then payment will be mailed to you. If you are paid over \$600 in any year from various studies, the University of Kentucky has to report this as income to the IRS. There is no compensation for the intake interview.

**WHAT IF I HAVE QUESTIONS?**

Before you decide whether to participate in this follow-up study, please ask any questions that might come to mind now. Later, if you have questions about the study, you can contact the investigator, Professor TK Logan at 859-257-8248. If you have any questions about your rights as a volunteer in this research, contact the staff in the Office of Research Integrity at the University of Kentucky at 859-257-9428 or toll-free at 1-866-400-9428. You may also contact the Cabinet for Health and Family Services Institutional Review Board (CHFS-IRB) at 502-564-5497 ext. 4102. You can ask for a copy of this consent form to take with you if you wish to do so.

**WHAT ELSE DO I NEED TO KNOW?**

This study is funded by the Kentucky Division of Behavioral Health to better understand the effects of the KY-Moms MATR program.

By choosing the appropriate option below, the client agrees to being contact by telephone approximately 6 months after giving birth for a follow-up interview. At that time, a participant can decide again whether they do or do not want to participate in the follow-up interview.

- I agree to be contacted for participation in the research study.
- I do NOT agree to be contacted for participation in the research study.

---

**If client answers “Do NOT agree”**

**Thank you for answering these questions. Your information helps improve prenatal services for other women in Kentucky like yourself.**

**If client answers “Agree”**

Thank you for agreeing to let us get in touch with you in the future. This last section asks you about some information to help us contact you. Like all the rest of the responses you have just given, the locator information is stored encrypted in a password-protected file to which only approved study staff has access. We will only use this information to locate you in the future, and it will not be given to anyone else. One thing we will ask is whether we can contact someone you know (like your mother or grandmother) to reach you. If we do that, we will not tell that person anything except that you have been asked to take part in a **health program follow-up study.**

1. In order to make sure we are only talking to you at the follow-up please pick **two security questions** from the list below and provide responses you will remember about 6 months after your baby is born.

1. What is the name of your first pet? \_\_\_\_\_
2. What was the make/model of your first car? \_\_\_\_\_
