POSITIVE OUTCOMES FOR **RECOVERY KENTUCKY CLIENTS**

RECOVERY CENTER OUTCOME STUDY FACT SHEET - 2024

Recovery Kentucky is a Social Model, Recovery Housing program created to help Kentuckians recover from Substance Use Disorder which often leads to chronic homelessness. Kentuckians participating in this Recovery Housing model benefit in multiple ways: reducing their substance use, increasing their employment, decreasing involvement in the criminal justice system, reducing mental health problems, preventing future physical health problems and increasing their involvement in a recovery support system that leads to long term sobriety and free from the use of drugs of abuse. A total of 290 clients from 18 established Recovery Kentucky programs completed a Phase 1 intake interview between July 2021 and June 2022 and a follow-up interview between July 2022 and June 2023. The average number of months after program exit the follow-up interviews were conducted was about 7.7.

¹ Misuse of opioids other than heroin, including prescription opiates, methadone, and buprenorphine. ***p < .001.
