

POSITIVE OUTCOMES FOR RECOVERY KENTUCKY CLIENTS

RECOVERY CENTER OUTCOME STUDY FACT SHEET - 2025

Recovery Kentucky is a Social Model, Recovery Housing program created to help Kentuckians recover from substance use disorder which often leads to chronic homelessness. Kentuckians participating in this Recovery Housing model benefit in multiple ways: reducing their substance use, increasing their employment, decreasing involvement in the criminal legal system, reducing mental health problems, preventing future physical health problems and increasing their involvement in a recovery support system that leads to long term sobriety and free from the use of drugs of abuse. A total of 282 clients from 17 established Recovery Kentucky programs completed a Phase 1 intake interview between July 2022 and June 2023 and a follow-up interview between July 2023 and June 2024.

Significant reductions in past-6-month Substance Use and Mental Health Problems

REPORTED ANY ILLICIT
